

INFORMATION PACK

Curriculum Subscription

	Monthly subscription (\$ per month)	Annual subscription (\$ for 12 months)
Primary 3 & Primary 4	60	648
Primary 5	80	864
Primary 6	100	1,080

Prices include delivery charges.

What You Get

- Curricular materials developed by Island Tutors
 - Topical Manuals (Notes and OEQs)
 - MCQ Practice
 - Topical Tests (MCQs and OEQs)

- Materials delivered to your mailbox
- Save time travelling to and from classes and sourcing for other curricular materials

- Digital interactive content (accessible through QR codes)

- Access to on-demand Helpdesk to get explanations for your questions from any source (e.g. homework, test papers)

How it Works

Select two books for the month

Upon subscription, choose two books from a list sent to your email. This can be based on the topic your child is learning in school or a topic your child needs extra practice for.

For each topic in the Primary Science syllabus, our range of books include:

- Manual (Notes and OEQs)
- MCQ Practice
- Topical tests (MCQs and OEQs)

Get all the assistance you need

Receive the books in your mail and let the learning begin!

Throughout the month, send any subject-related questions (e.g. school homework or test papers) via WhatsApp and get explanations from our curriculum experts or teachers.

Select another two books for the next month

Renew your subscription and select the next two books for the next month. Continue to receive on-demand assistance for any subject-related questions.

Additional Services

Ad-hoc private tuition classes

Should you require extra assistance before the examinations, add on ad-hoc classes at the same rate as a regular student.

Arrange for a lesson by reaching us on WhatsApp at 97368851 or email at info@islandutors.co

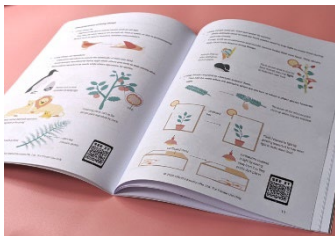

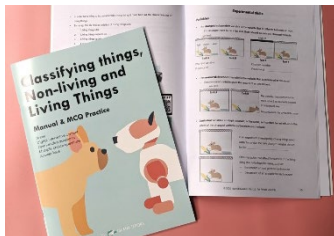

Understand your child's strengths and weaknesses

Send pictures of your child's test paper to receive an analysis of your child's strengths, and the topics and skills your child needs to focus on. Receive revision tips and examination strategies specific to your child's needs from our curriculum experts or teachers.

Syllabus

Our content is designed based on the latest PSLE Science syllabus and marking trends across schools.
